- Hopper equaliser, self-cleaning conveyer belt, leaf remover
- Second sorting of leaves by ventilation (covering entire width of pick-up)
- Air flow control
- Final sorting by vibrating grid or conveyor belt with grill
- Lateral turbine located towards front for spacing
- Harvesting width : 1,80 m

## Hopper capacity

Capacity: 1200 liters

## Hopper emptying

1,80 m

## height Harvesting width

2,65 m

## WEIGHT AND DIMENSIONS

- Length : 5,60 m

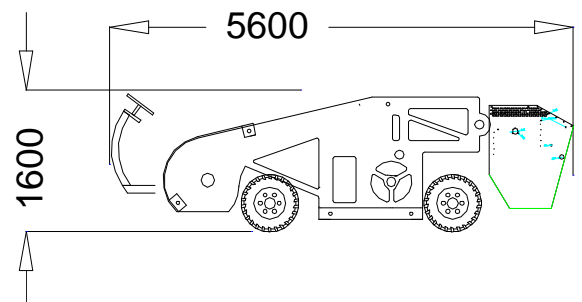

Width : 2,20 m

Height : 1.60 m

Weight : 3300 kg

## OPTIONAL

- Lateral sweeper satellite
- Cabin
- Chestnut peeler
- Step in crab
